

Message from our 2016 Campaign Chair

It is an honor and a pleasure to serve you as the Chair of the 2016 Combined Federal Campaign (CFC). This year's campaign runs from September 1 through December 15, 2016. The Louisiana Combined Federal Campaign services all 64 Louisiana parishes and plays a significant role in funding various charitable organizations that have a huge impact on our community. The success of the 2016 campaign depends on participation. I encourage all Federal employees to actively participate and be engaged in the many activities surrounding the annual campaign.

This year, the Combined Federal Campaign has adopted the slogan, "Show Some Love". As a District Manager with the Social Security Administration, I have made a career of being a public servant. I am afforded the opportunity to "Show Some Love" to the public on a daily basis. I see the needs of our community on a very intimate level. The Social Security Administration assists people from all lifestyles, including every socio-economic and demographic imaginable. Although many of you are already active in your community, the Combined Federal Campaign gives Federal employees another opportunity to "Show Some Love" to the people in our community.

The Federal Executive Board has set this year's goal at 1.5 million dollars. To reach this goal, we will need everyone's participation. Please take advantage of our new online tools that help to simplify your involvement and remember that no gift is too small to help someone in need.

Sincerely,

Brandon James

Brandon James
District Manager, Social Security Administration
